PROJECTS

Stocks-Portfolio-Dashboard in REACT 🔗 | [JavaScript](#), [ReactJS](#), [Bootstrap](#), [ExpressJS](#)

May 2022

- A web based application which is used to Track and monitor your investments in different apps.
- This simple to use exploratory dashboard can give you a quick sense of the rate of return, investment distribution and portfolio risk associated with your investment choices.
- This web application shows your data in form of grid.
- [Github Link](#)

Regression Stock Prediction 🔗 | [Python](#)

Mar 2023

- The regression equation is solved to find the coefficients, by using those coefficients we predict the future price of a stock.
- Regression analysis is a statistical tool for investigating the relationship between a dependent or response variable and one or more independent variables.
- [Github Link](#)

Food-Cart 🔗 | [ReactJS](#), [HTML](#), [CSS](#) [Bootstrap](#)

Nov 2022

- A food delivery application using React.js and JSON server which serves as a mock backend server.
- This application allows user to search for food item and filter out by various categories based on rating, price, etc and can add items to the cart.
- [Github Link](#)
